The Denison Pequotsepos Nature Center (DPNC) is one of the oldest environmental organizations in Connecticut. With origins dating back to 1946, the Nature Center has provided the community and visitors with opportunities to better understand and appreciate the natural world, our impact upon it, and our place within it. Businesses large and small have long supported educational programs and events for all ages, whether through Green-tie Celebration donations, contributions of services, or outright gifts.

DPNC can now recognize those organizations, and the value of their support, more broadly. Through our Community Partners Directory we hope to build community appreciation and support for these businesses—our partners in helping the Nature Center fulfill its mission: to inspire an understanding of the natural world and ourselves as part of it—past, present, and future.

We deeply appreciate these businesses and hope you will support them as they help the Nature Center to thrive.
